

November 1, 2011

Dear Brothers and Sisters,

Despite mixed signs of the improvement of the economy, there is a significant need in the community for services provided by agencies that are funded through the United Way in Waukesha County.

The need is greater this year than in the past – funding cuts at many levels are impacting the ability of many agencies to provide services. Our contributions are needed to keep these important services available to the residents of our community.

For many years our Local has contributed to the annual United Way campaign. By contributing to the United Way we help fund vital services necessary to assist people in need, some of which are our members.

I would like to urge you support the 2011 United Way Campaign. By contributing you are supporting the community and investing in our future.

In solidarity,

Michael R. Kluth

President

Local 1377, IAMAW
